S2 Appendix Detailed instructions and questions used in the experiment. All questions used 0-100 slider scales. See the Method for a detailed example. Also see the Method for the secondary task of memorizing numbers.

We would like to ask you some questions about your opinions. For each question, there is no right or wrong answer. It is all about your own opinions and feelings AT THE MOMENT. Your answers will only be examined in aggregation along with other several hundreds of people's answers. For some of the questions, we will ask you twice. We try to understand how people may update what they think about an issue after considering another issue. You are free to change (or not to change) your answers to the question when it is asked the 2nd time. Remember, it is all about your opinions and feelings AT THE MOMENT when you answer a particular question.

- 1. Presidential approval and country satisfaction (A) Do you approve of the way Barack Obama is handling his job as president? (B) All in all, are you satisfied with the way things are going in this country today?
